Search Warrant Leads To Drug Seizure And Charges

March 4, 2015

On Wednesday March 4, 2015 Carver Police, with assistance from the Plymouth County Sheriff's Department concluded a lengthy investigation into the sale of narcotics with the execution of a search warrant at 21 Holmes St. The investigation and subsequent search led to the seizure of several grams of heroin and \$525.00 in cash. Four adults in the home face criminal charges related to the investigation and an adult female was arrested on an outstanding warrant.

This investigation led to a joint effort between Carver Police, Taunton Police and the DEA which resulted in the arrest of the supplier of heroin from Taunton to Carver. At the time of his arrest he had over 20 grams of heroin on him.

At this time no names are being released pending arraignments in Wareham District Court. Further information may be released at that time.

The Carver Police Department continues to place the highest priority on stemming the flow of this poison into our town! We will continue to take the fight to them on behalf of the residents of Carver.
